ANNEXE EXPO
A new temporary
exhibition every year!

From 4 April to 30 August 2020

LAUGH!
Suitable for children aged 3+
Duration: 1 hour 30 minutes

TRY A LAUGH A MINUTE!

Experts say we laugh 18 times a day on average. It may seem trivial, but laughing is an important part of our everyday lives.

The aim of this exhibition is to scientifically decode laughter through a series of fun, entertaining and quirky experiences. It touches on an array of scientific disciplines, including behavioural biology, neuroscience and robotics.

Smile, giggle, belly-laugh! Through table games, digital apps, screenings, workshops and interactive installations, this exhibition invites you to explore laughter in your own personal way.

The "Guili guili" space dedicated to our youngest visitors (3-6 year-olds) features 10 manual games, including a tickle trail, comical concentration, a silly-faces machine, an emotions puzzle, and a reading corner with reference books about sailing! Here, laughter is a great way for children to explore their emotions, the human body and relationships with others.

Our coordinators provide a **guided tour of the exhibition's highlights every day at 3 pm during the spring school holidays.**

Exhibition designed and produced by
ART'M Créateurs associés, featuring
50 interactive modules spread over 400 m².
