L'ANNEXE EXPO

A new temporary
exhibition every year!

10 April to 5 September 2021

LAUGH!

Suitable for children aged 3+
Duration: 1 hour 30 minutes

TRY A LAUGH A MINUTE!

Experts say we laugh an average of 18 times a day - in normal times. It may seem trivial, but laughing is an important part of our everyday lives.

The aim of this exhibition is to scientifically decode laughter through a series of fun, entertaining and quirky experiences. It touches on an array of scientific disciplines, including behavioural biology, neuroscience and robotics.

Smile, giggle, belly-laugh! Through table games, digital apps, screenings, workshops and interactive installations, this exhibition invites you to explore laughter in your own personal way.

The "Guili guili" space features ten interactive activities for small children (3-6 year-olds) including the library of laughs, giggle generator, Mémorire laughter memory game, funny face factory, emotions puzzle and more. Here, laughter is a great way for children to explore their emotions, the human body and relationships with others.

Our coordinators provide a guided tour of the exhibition's highlights: every day in the spring school holidays at 11 am and 3 pm, and all Saturdays and Sundays at 3 pm in June.

Exhibition designed and produced by ART'M

Créateurs associés, featuring 50 interactive

modules spread over 400 m².

*This exhibit is accessible to all disabled visitors, some may require additional assistance.
